

Ease Your Hemorrhoids Once And For All

Great tip for your painful **hemorrhoids** is to cut back on how much sodium you eat. This is crucial because salt dries out your body, and this is the worst thing you can do to be able to yourself if you are already suffering from difficult and painful going number 2. On a side note, salt is not good for your heart health either.

Avoid Straining When You are Using the Bathroom

In case you are pushing really hard to complete your mission, it is best to just stop and go for a walk and soon you feel the urge again. Straining will cause **hemorrhoids** to form, and you will be very uncomfortable for a long time.

Try going for a walk or doing a little simple exercises to encourage a natural **bowel** movement when you have hemorrhoid trouble. Forcing a stool is a bad idea for hemorrhoid sufferers as it places undue stress on the hemorrhoids. A bit of moderate physical activity is often enough to loosen up the bowels and promote the normal need to go.

Consume Foods that are High in Fiber to Help You Deal With Hemorrhoids

Fruits like watermelon and grapes, and also vegetables like cabbage and okra, will soften your stool and make it easier for you in order to use the restroom. Continue to include these foods in your diet even after you find relief; they will help prevent the hemorrhoids from returning.

Great way to get rid of the pain associated with hemorrhoids is to soak in a warm bath with about 2 glasses of Epsom sodium. You may think salt would burn the hemorrhoid, but it actually draws the moisture slowly out of it, reduces the swelling, and ultimately aids to eliminate the pain.
